IAAO Course 102 - Income Approach to Valuation

The Income Approach to Valuation is designed to provide the students with an understanding and working knowledge of the procedures and techniques required to estimate the market value of vacant or improved properties by the income approach. The material covers real estate finance and investment, capitalization methods and techniques, analysis of income and expenses to estimate operating income, selection of capitalization rates, and application of the approach. The Income Approach to Valuation utilizes lectures, classroom discussion, and homework problems to emphasize the main concepts and procedures taught in the course.
